

Press Release..

Media Rotana Dubai, selects Opentec Systems LLC as a preferred Vendor for Passport ID Scanning System for DTCM-CID business process requirements

11 January 2018

Opentec’s popular “**Passport ID Scanning solution – Assure ID**” continues to positively impact Middle East largest Hotel owners and management companies. A giant in the hospitality industry, **Rotana Hotel Management Corporation PJSC**, has successfully implemented the Opentec Assure ID Passport ID Scanning Solution for Media Rotana Al-Barsha Dubai. The Opentec’s Assure ID solution is built around 3M / Gemalto secure Passport / ID document readers.

“**Opentec Assure ID Passport ID Scanning solution** enables clients like Rotana to have customized processes that aid DTCM financial reporting, internal controls and sending required data & information to Government authorities and agencies,” comments Syed Farrukh - Systems Manager at Opentec who headed the migration process. He comments, “Rotana initially implemented the **Opentec Assure ID solution** at Media Rotana Dubai as a test / pilot run because they needed a successful solution to help them, as the previous Samsotech Passport ID System had operational limitations plus total cost of ownership (TCO) was much higher. It is the ideal solution for their business that needed a reliable, robust system to help them to stay on top of the game.”

“We believe that this move will help Media Rotana to take their unique services to the next level,” concludes Syed Farrukh.
